

## UW HEALTH JOB DESCRIPTION

### Nurse Practitioner Intern

Job Code: 790041	FLSA Status: Non-Exempt	Mgt. Approval: K. Panther	Date: October 2023
Department: Advanced Practice		HR Approval: J. Olson	Date: October 2023

### JOB SUMMARY

The Nurse Practitioner Intern is a registered nurse who is active in a graduate program of study to become a board certified Advanced Practice Nurse. This individual delivers care and functions within their scope of practice as a healthcare provider under the immediate and direct supervision of another advanced practice nurse, Physician Assistant, or physician. This individual, working collaboratively within a multidisciplinary health team, provides comprehensive care to both well and ill patients in the ambulatory and/or acute care setting. The Nurse Practitioner Intern demonstrates and participates in medical/nursing clinical knowledge, communication and interdisciplinary collaboration, and systems-based practice in caring for patients and families. The Nurse Practitioner Intern works with administrative, nursing, physician, and university faculty to assure safe, effective, quality patient care and to promote UW Health's educational and research missions.

### MAJOR RESPONSIBILITIES

***\*\*All responsibilities noted below will be completed under the immediate and direct supervision of a board certified and privileged Nurse Practitioner, Physician Assistant, and/or physician.\*\****

#### Clinical Knowledge

1. Demonstrates knowledge of etiologies, risk factors, pathophysiology, presentation, and epidemiology of medical conditions.
2. Performs history and physical assessments of patients that are accurate, complete, concise, relevant, and appropriate for age, gender, and clinical problem.
3. Assists with ordering appropriate diagnostic studies and interpreting the results.
4. Utilizes critical thinking to synthesize and analyze collected data.
5. Develops, implements, evaluates, and alters the plan of care as needed.
6. Manages general medical and surgical conditions based on knowledge of the indications, contraindications, side effects, interactions and adverse reactions of pharmacologic agents and other relevant treatment modalities.
7. Counsels and educates patients and families.
8. Assists with and/or performs procedures pertinent to practice area.
9. Maintains accurate, complete, concise, and timely documentation in the electronic medical record.

#### Patient Care

1. Provides care that is patient and family centered, compassionate, appropriate, and effective for the promotion of health, prevention of illness, and treatment of disease throughout the appropriate lifespan.
2. Facilitates consistent, coordinated care and clear communication among all members of the healthcare team.
3. Incorporates the patient and family in care planning and treatment across settings.
4. Serves as an advocate for patients and families in navigating the health care system.

#### Practice Based Learning and Clinical Improvement

1. Demonstrates insight into own strengths, limitations, and knowledge deficits.
2. Demonstrates initiative to meet identified learning needs using multiple resources.
3. Actively participates in self-evaluation by seeking and utilizing guidance and constructive feedback in a professional manner.
4. Continuously seeks opportunities for clinical advancement and knowledge and skill attainment.

#### Professionalism

1. Follows ethical principles regarding patient confidentiality, informed consent, and unanticipated adverse outcomes.
2. Maintains effectiveness where circumstances and priorities are changing. Is flexible, resilient, and change oriented.
3. Welcomes and participates in opportunities to advance the mission of UW Health through service, scholarship, science, and social responsibility.
4. Participates in organizational and departmental meetings, educational opportunities, committees, and workgroups as necessary.

#### Systems Based Practice

1. Considers cost effectiveness and risk/benefit analysis when making decisions about patient care.
2. Uses evidenced-based medicine to systematically analyze and improve patient care practices.

## UW HEALTH JOB DESCRIPTION

3. Participates in quality initiative/performance activities.
